

**041-15 Fire Apparatus Equipment  
Addendum #1  
Questions and Answers**

1. Does the Fire Department want white or colored hose? Is 1.5” the correct size or are they looking for 1.75”?

Answer: 1.5” is the correct size and we want yellow hose.

2. The Fire Department is asking for double jacketed hose, but are referencing Fire Quip LDH, Hydro Flow which is a rubber style hose. Can you clarify which is needed? Also, is a white or colored hose preferred?

Answer: The Fire-Quip LDH Hydro Flow—rubber style hose is what is needed or equal. The color of the hose needs to be yellow.

Thank you,

Bill Gilliland
