**ADDENDUM I**  
**QUESTIONS AND ANSWERS**

1. Are there any CAD drawings for the play areas?

*No, there are no available CAD drawings.*

2. How deep is the mulch that is currently used in the playground area?

*The mulch is approximately 6-8 inches deep.*

3. What does the selected contractor need to do with the current mulch being used?

*The removed mulch can be left in a pile in the park to be used elsewhere by the owner.*

4. What type of drainage is needed for this project?

*A french drain is needed*

5. Can the selected contractor leave any equipment onsite during installation?

*Equipment can be left behind the stage locked up in a chain link fence with a contractor supplied lock.*
